TAHOE VISTA - LAKE TAHOE - CALIFORNIA

---

**Lake Tahoe "Big Water"** elevation 6225 feet, 26 miles long, 14 miles wide, over 200 square miles, is located in the HIGH SIERRAS, on the CALIFORNIA-NEVADA boundary, 30 miles from Reno.

**Sandy Beach**, site of an ancient Indian village, is located on the north shore of LAKE TAHOE, 9 miles north of TAHOE CITY, 3 miles south of CAL-NEVA, via U. S. Highways 40 and 50. Sandy Beach slopes gradually into the lake with a smooth, fine sand bottom — no holes, with about 5-foot depth of water 400 feet from shore, making an IDEAL BATHING beach and playground for both children and adults. Numerous warm springs moderate the cold water of the lake.

**Rustic Housekeeping Cabins** spaced for privacy, are located in a grove of Tamarack, Pine, and Fir trees on the edge of the beach. All cabins are new, strictly modern, completely screened, with private showers, toilets. All have electric ranges, electric water heaters, heating stoves, ice refrigerator and either screen or open porches. Completely equipped for housekeeping, including linen. No extra charges.

**Cabins Without Housekeeping** facilities are completely furnished. All with private showers, toilets.

**Hotel Rooms**, large, attractive, sunny, with or without bath.

**Housekeeping Tents 16x20 and 9x12** with electric lights, are large and roomy. Can be rented equipped with bed, mattress, table, chairs, and cook stove only or completely furnished for housekeeping as desired.

**BRING YOUR BATHING SUIT**

**Camp Grove** is spacious. Campers may select any available spot. Camp fees include the use of a camp table with attached benches, and a camp stove. Modern toilets, free hot showers, water piped to convenient outlets. Electric connections available at a small charge for trailers and campers.

**Housekeeping Tents and Camp Grove** are separate from the cabins, about 400 feet from the beach, in a seven-acre grove of pine and fir trees. **No poisonous snakes or shrubs.**

**Be Sure to Bring Your Bathing Suit.**
